

## CENSUS WILL BE TAKEN IN CONNECTION WITH THE DOMINION

E. S. McPhail Has Charge of Work West of Great Lakes.

### ARRIVES IN EDMONTON TO MEET ENUMERATORS

Will Give Them Instructions Preparatory to Taking Census in June—Population and Considerable Other Data to Be Gathered in Three Weeks From the Beginning of the Work.

It will require 35 enumerators to take the census of Edmonton. In connection with the Dominion census, in June next. All of these enumerators have been appointed by Major DeBos, Thibault, commissioner for Edmonton, and they will commence their work next month.

For the purpose of meeting the census commissioners for the northern districts tributary to Edmonton, and of giving instructions to them on the taking of the census, E. S. McPhail, who has been appointed by the Dominion government, to superintend the work west of the Great Lakes, reached the city this morning.

McPhail is a knight at the King Edward. Today he is meeting three census commissioners: Messrs. Thibault, of Edmonton, J. J. Stanton, of the Victoria district, and A. H. McCauley, of Toronto. Mr. McPhail will give the commissioners their instructions, and will also discuss the necessary pamphlets and forms for the census taking.

The census of the Dominion will commence after the first of June, said Mr. McPhail this morning. "The census will be taken as of the first of June, that is, everybody residing in the Dominion on that date will be enumerated."

"Although it is pretty hard to make an estimate of how long it will take to complete the census, we expect to have all the data back in Ottawa 21 days after a start is made."

"The census will be taken in respect to population, carrying capacity, and industries."

Mr. McPhail was asked if 35,000 would be a fair strike for Edmonton to reach this summer. "That means an increase of over one per cent in the last five years. That will certainly be going some."

Arrangements are already being made to take the census of the northwestern districts of the province, Major Thibault, commissioner in Edmonton, has sent Mr. A. H. McCauley, deputy, to the north to appoint enumerators and distribute forms. Mr. McCauley will take the census in Grande Prairie.

### EXPECT STRIKE IN OIL WELLS AT MORINVILLE

Within a month there should be some definite strike of the oil wells of the American-Canadian company at Morinville. This is the opinion of several of the men who are working recently, and have watched the progress of the boring. The indications are that the extension of the deposits of petroleum. The borings are covered with oil as they come up, and the drillers are to strike a gusher soon. The oil is now in a condition of hard rock, and when it is penetrated oil should be discovered.

## BANK PRESIDENT DENIES PART OF OLIVER STORY

DECLARES THAT NO FOUNDATION EXISTS FOR PHOTOGRAPHIC REPRODUCTION OF LEDGER OF THE IMPERIAL BANK.

Toronto, May 1.—The pictured reproduction published by the Evening Telegram in connection with the story regarding one of the ministers of the federal cabinet is absolutely false. It is not a photographic reproduction of the ledger of the Imperial Bank of Canada nor a copy of the account.

## SITE FOR A NEW SEPARATE SCHOOL

Five Acres Corner Twenty-first Street and Stony Plain Trail.

A site for a new separate school has been purchased in the west end of the city. Five acres, at the corner of Twenty-first street and the Stony Plain trail have been taken over by the Bishop of St. Albert by the Roman Catholic Separate school district at a price in the neighborhood of \$15,000.

## Grand Trunk Engineer Brings Train to a Halt in Time to Save Passenger's Lives

Many lives were doubtless saved Saturday night by the presence of mind displayed by Engineer Harlan, who was pulling a passenger train from Winnipeg, westbound, on the Grand Trunk Pacific, according to passengers who arrived in Edmonton from the east today. The train was speeding along at the rate of about thirty-five miles an hour when on reaching a point some distance this side of the Manitoba metropolis the engineer caught a glimpse of spreading rails almost directly in front of him. He reversed the lever and brought the train to a standstill but a few inches from where the rails started to spread. The train consisted of eleven coaches, in addition to the baggage and express cars, and carried a heavy burden of passengers. Nothing definite is known as to the cause of the rails spreading.

## SETTLERS COMING FROM MICHIGAN COLLECTOR FACES LARCENY CHARGE

The settlers' excursion which is to run to Alberta from the state of Michigan on May 10th will bring families of settlers to the province, according to word received by Chief Publicity Commissioner Hotchkiss, from Commissioner Morin, in Michigan, this morning. Commissioner Morin has been busy engaged for some months in rounding up this large party of settlers, and the fact that they are the cream of Michigan farmers.

Mr. Hotchkiss has information that 300 French settlers are coming west May from the state of Massachusetts, and will settle along the Canadian Northern railway east of Edmonton. On May 20th, 11 families are leaving for the province, and on the 27th 10 families will leave.

## C.P.R. TO INAUGURATE A SHORTER SERVICE

### Thirty-Two Hours for Trip Between Edmonton and Winnipeg Over New Line via Wetaskiwin and Saskatoon

A thirty-two hour service between Edmonton and Winnipeg, over the new C. P. R. main line via Wetaskiwin and Saskatoon, will be inaugurated shortly, according to the announcement made by F. W. Peters, assistant to Vice-President Whitley, of the C. P. R., to the Capital this morning. Mr. Peters, together with Assistant Chief Engineer Sullivan, and Solicitor Bond, is en route to the Alberta. Trains will run into Strathcona, and eventually into Edmonton, over the main line on a 32 hour schedule between the cities. On May 1st, in the morning, leaving Winnipeg at 10:30 at night.

The train will be a daily one, giving a daylight run through Saskatoon. The company have just completed the line at Hardisty, by D. H. W. Peters. When the cut-off from Sedgwick to Strathcona is constructed, the 32 hour schedule will probably become a 20 hour schedule.

The new train service will give four daily trains from the C. P. R. into Strathcona. To start on Station Here. The new railway company are preparing plans for a very commodious station at Edmonton, which will be erected on the company's property at the corner of Jasper and Tenth. Work will probably start on the station in the near future, provided that difficulties in connection with the entrance of the railway across certain city streets are satisfactorily settled shortly. Mr. Peters stated that there was no reason why the station should not be started this year.

"Conditions throughout the west are very promising," said Mr. Peters. "The prospect for a big crop are splendid."

## MOOSE BAXTER FINED HEAVILY

Sells Liquor Without License and Gets in Bad with the Court.

"I'll fine you \$500 and costs." That was the sentence passed upon Moose Baxter, of Calgary, well known in Edmonton, on Saturday afternoon, by Supt. Bean of the mounted police. (Continued on Page Five.)

## HOMESTEAD ENTRIES SURPRISINGLY LARGE

Report Local Land Office Shows Big Gains Over Last Year.

### FIVE STENOGRAPHERS ARE KEPT VERY BUSY

Correspondence Requires Answering Multitude of Letters Each Day and Number Is Increasing. All the Time—South African Scrip Now in Greater Demand Than Ever.

Five stenographers at the local land office are handling outgoing correspondence at the rate of over 270 letters per day, or an average of over 50 letters per stenographer, a record which is created in few other business offices in the city.

It requires something like \$150 worth of stamps per month to stamp outgoing letters from the land office. According to the local figures 7785 letters were sent out during the month, less than 1,000 of which were pamphlets. The balance of 6785 are actual typewritten letters this makes an average of over \$70 per day for the 21 working days of the month.

The homestead entries made during the month totalled 865, as against 508 for April of last year. The pre-emptions were 7, the purchased homesteads 2, and the South African scrip 21, making a grand total of 896 homesteads, as against 4, total of 514 last year in April.

The patents recommended during the month were 201, as against 123 in April last year. The cancellations were 180.

## S. A. Scrip Going East

The location of 21 South African scrips during this month, is an indication that the scrip is being looked at with a rapid eye, and that there will be very little left. An estimate places the number still outstanding at less than 1000.

## PERMITS ISSUED THIRTY DAYS INDICATE MUCH ACTIVITY IN BUILDING CIRCLES.

During the month of April permits for the erection of buildings valued at \$354,952 were issued at the office of the building inspector. Of the 283 permits which were taken out, the majority are for residences ranging in price from \$800 to \$10,000. Permits for only half a dozen large business structures were issued which tends to show that the demand for residences has not in the least abated. Altogether, there are at present nearly three hundred houses under course of construction and this number increases to five per cent. were rented before ground for the foundation had been broken.

If the present rate holds up, all records for building in this city will be broken during the coming year, as at least four million dollars worth of new structures will be taken out. The number of permits taken out last month exceeds the figures of the corresponding month last year by 61. During last April permits for \$259,196 worth of buildings were taken out, which is over \$100,000 less than the figures for the month just closed.

Prospects for May being a record breaker so far as the building department is concerned are also very bright, as there are a large number of buildings for which permits should have been taken out, but which, for one reason or another, will not be issued until some time this month.

## MEASLES WILL NOT INTERFERE WITH POLICE PLANS TO ATTEND CORONATION

The announcement in a Calgary paper that on account of an outbreak of measles in the R. N. W. M. P. barracks, the trip of a contingent of mounted policemen to the coronation will be abandoned, was discredited by Supt. Guthrie, in conversation with the Capital this morning. "No word has been received in relation to this matter," said Supt. Guthrie, "but I regard it as extremely improbable that the trip will be called off. The outbreak in Regina would not necessarily prevent the formation of a contingent."

All that is likely to happen, the Capital was informed this morning, is that the coronation of the king will be held in the city of London, and that the departure of the mounted policemen on June 2 may be considerably shortened on account of the outbreak of measles. The men who will represent the force are thoroughly trained men. As a matter of fact, a member of the local detachment has recently been discharged from the hospital after an attack of measles, but foulness was all that was required to insure against the transmission of infection, and the illness of a few men in Regina will not likely interfere with the formation of a contingent of the full force of eighty men.

No word as to the date at which the men from "G" division would proceed to Regina has yet been received, but it is believed that they will leave in the drill at the police headquarters in the course of the week.

## UNION MEN DECLARE AGAINST OPEN SHOP POLICY IN EDMONTON

CUSTOMS RECEIPTS SHOW ENORMOUS INCREASE FOR THE MONTH JUST CLOSED

The phenomenal increase of almost one hundred per cent is shown in the customs receipts for the month of April as compared with the corresponding period in 1910. For the business month which came to a close on Saturday last the receipts were \$50,546.85, while for the month of April, 1910, the total was \$27,532. It was in March of the present year, when the shipments of goods for spring trade were heaviest, that the record total for Edmonton in customs receipts was registered, the figure being \$58,546.

## MARKED INCREASE POSTAL RECEIPTS

For Month of April as Compared With Corresponding Period Last Year.

An increase of in the neighborhood of thirty per cent. in postal office receipts for the month of April, as compared with the corresponding period last year, is shown by a perusal of the statistics for the month which have just been completed by the post office department. The total business done by the department in Edmonton during the month was \$101,245.40, as against \$76,123.40 in April last year. The cancellations were 180.

## S. A. Scrip Going East

The location of 21 South African scrips during this month, is an indication that the scrip is being looked at with a rapid eye, and that there will be very little left. An estimate places the number still outstanding at less than 1000.

## APRIL BREAKS RECORD FOR STREET RAILWAY

Upward Half Million Passengers Carried During the Month—Lack of Cars Congests Traffic on Strathcona Line

April proved to be a record breaking month for the street railway department, 457,929 passengers being carried during the thirty days as compared with 235,828 for the month of April one year ago. With a few more cars in operation it would have been possible to have transported over half a million passengers, but owing to a shortage of rolling stock a large number of fares were lost. Especially was this true on the Strathcona line where the addition of one or two more cars would not have given more than an adequate service.

Six of the new single end cars, ordered some time ago, are now on their way to the city and immediately upon their arrival here will be pressed into service in order to meet the demands of the travelling public. The passengers carried over the different routes during the month were as follows:—Route number one, Alberta avenue to McKinnon via Newmarket, 149,916; route number 2, Edmonton and Strathcona, 156,771; route number 3, Alberta avenue to the fourth street by way of Syncline ave., 103,015; route number 4, Packing plant to the city and return, 5,515; route number 5, First street and Vermilion avenue, 12,510. Traffic has shown an increase of about twenty per cent over the different lines during the past six days.

A child, suffering with scarlet fever, was removed from his home on Ninth street and taken to the hospital, especially. According to the reports on file at the City Health office it would appear that the disease is gradually dying out as only two new cases have been reported during the past few days.

## SENATOR ROY TO GO AS COMMISSIONER TO PARIS

FORMER EDMONTON MAN IS STILL MANAGING DIRECTOR OF LE COURIER DE L'OUEST OF THIS CITY.

A despatch comes from Ottawa which confirms the appointment of Hon. Senator Roy, of Edmonton, to the position of Canadian Commissioner to Paris, France, with H. J. Hellecourt, editor of Le Devoir, of Quebec, as assistant commissioner. This announcement has been made several times, but it comes now as official from the Dominion capital. Senator Roy, who was a resident of Edmonton for a good many years, has lately been residing in the east. He is managing director of Le Courrier de L'Ouest, Edmonton, and president of the Jasper Company, Ltd., of Edmonton. He has been prominent for a number of years in financial circles, and has been instrumental in bringing a large amount of French capital into the west.

Senator Roy, who was a resident of Edmonton for a good many years, has lately been residing in the east. He is managing director of Le Courrier de L'Ouest, Edmonton, and president of the Jasper Company, Ltd., of Edmonton. He has been prominent for a number of years in financial circles, and has been instrumental in bringing a large amount of French capital into the west.

Hon. Philippe Roy, M. P., is a native of St. Francois county, P. Q., and is a son of French Canadian parents. His father was G. B. Roy, of that place, and his mother Josephine Valliers. He was born on Feb. 13, 1868, in Deseronto, Ont. He was married to Miss Helen Young, of Edmonton, and resides here.

Word comes from Winnipeg that the Edmonton entry for the Governor General's dramatic trophy may carry off the honors. Their production of "The Tyranny of Tears" is regarded as far surpassing any amateur production ever made in Canada.

## Trouble Anticipated If Contractors Insist on Employing Non-Union Workmen

### FURTHER ACTION EXPECTED TONIGHT'S LABOR MEETING

## Builder's Exchange Hardly Prepared to Put Open Shop Into Effect at Once as There Are Few Non-Union Workmen in City at Present—Bricklayers and Laborers Not Effectuated

"So long as union men are employed, there will be no trouble. The moment that non-union men are put on by the contractors to work on jobs with union men, trouble may be expected, for the union men will not stand for it."

That is the situation now, according to a prominent labor man, with respect to the declaration of open shop by the builders' exchange, which declaration comes into effect today, May 1st.

The builders' exchange of Edmonton, following the example of exchanges all through the west, announced early in the year that on May 1st they would bring into effect a policy of open shop in all building trades, save in respect to those unions who did not have the sympathetic strike clause in their agreements.

Today that policy comes into effect. So soon, however, as non-union men are employed by the builders under the open shop policy, trouble will commence. It is an international regulation, affecting all unions, that union men shall not work on jobs with "scab" labor. It does not become actively effective at present, since there are none but union men working on jobs under way, and since the two unions who have the most work under way at present, bricklayers and laborers, are not affected by the open shop declaration, because they have agreements with the exchange which include the "no-sympathetic" strike clause in their agreements.

There is a feeling of considerable anxiety in the city at present, as a result of the builders' action in declaring open shop, as to just how the unions are going to take it. It is hardly to be expected that the summer will go through without trouble of some kind. The builders are determined to maintain the open shop policy, the union men will not work with non-union labor, which is bound to be employed before the season is over.

days and if this continues for the remainder of the summer at least thirty-five cars will be needed to fill the demands of the public. At certain hours of late all of the cars are packed to the doors and on some occasions, especially Saturdays, the service has been totally inadequate. The receipt and delivery of the cars has been ordered, will, however, do much toward bringing the service up to the proper standard.

A child, suffering with scarlet fever, was removed from his home on Ninth street and taken to the hospital, especially. According to the reports on file at the City Health office it would appear that the disease is gradually dying out as only two new cases have been reported during the past few days.

A despatch comes from Ottawa which confirms the appointment of Hon. Senator Roy, of Edmonton, to the position of Canadian Commissioner to Paris, France, with H. J. # CITY'S CENSUS WILL BE TAKEN IN CONNECTION WITH THE DOMINION

E. S. McPhail Has Charge of Work West of Great Lakes.

ARRIVES IN EDMONTON TO MOUNT ENUMERATORS

Will Give Them Instructions Preparatory to Taking Census in June—Population and Considerable Other Data to Be Gathered in Three Weeks From the Beginning of the Work.

It will require 35 enumerators to take the census of Edmonton. In connection with the Dominion census, in June next, all of these enumerators have been appointed by Major Delphis Thibault, commissioner for Edmonton, and they will commence their work next month.

For the purpose of meeting the census commissioners for the northern districts tributary to Edmonton, and of imparting instruction to them of the taking of the census, E. S. McPhail, who has been appointed by the Dominion government to superintend the work west of the Great Lakes, reached the city this morning.

Mr. McPhail is a native of the King Edward. Today he is meeting these census commissioners—Messrs. J. Stanton, of the Victoria district, and A. H. McCauley, of Yukon. Mr. McPhail will give the commissioners their instructions, together with the necessary pamphlets and forms for the census taking.

"The census of the Dominion will commence after the first of June," said Mr. McPhail this morning. "The census will be taken as of the first of June, that is, everybody residing in the Dominion on that date will be enumerated."

"Although it is pretty hard to make an estimate of how many will be enumerated, the census, we expect to have all the data back in Ottawa 21 days after it is made."

"The census will be taken in respect to population, carrying capacity, and infirmities."

Mr. McPhail was asked if 35,000 would be a fair mark for Edmonton to reach this summer. "That means an increase of over 100 per cent in the last five years," Mr. McPhail said, "but that certainly is going high."

Taking Census in North

Arrangements are already being made to take the census of the far northern districts of the province. Major Thibault, commissioner in Edmonton, has sent W. A. Rae, as deputy, to the north to appoint enumerators, and distribute forms. Mr. Rae himself will take the census in Grande Prairie.

EXPECT STRIKE IN OIL WELLS AT MORINVILLE

Within a month there should be some definite strike of oil in the oil wells of the American-Canadian company at Morinville. This is the opinion of several who have visited the wells recently, and have watched the progress of the boring. The indications are strong for the existence of big deposits of petroleum. The borings are covered with oil as they come up, and the drillers expect to strike a good one soon. The drillers are now in a formation of hard rock, and when this is penetrated oil should be discovered.

BANK PRESIDENT DENIES PART OF OLIVER STORY

DECLARES THAT NO FOUNDATION EXISTS FOR PHOTOGRAPHIC REPRODUCTION OF LEDGER OF THE IMPERIAL BANK.

Toronto, May 1.—The pictured reproduction published by the Evening Telegram in connection with the story regarding one of the ministers of the federal cabinet is absolutely false. It is not a photographic reproduction of the ledger of the Imperial Bank of Canada nor a copy of the account.

This was the statement made to the Globe last evening by D. R. Wilkie, president and general manager of the Imperial Bank, when asked if he had anything to say concerning the pictorial part of the article published by the Telegram.

The property is bounded by Twenty-first street, the Stoney Plain trail and the St. Albert trail. It is probable that a large new school will be erected on the site next year, as the growth in population in that portion of the city demands such.

ODD FELLOWS OBSERVE ANNIVERSARY OF ORDER

The 92nd anniversary of the establishment of the order of Odd Fellows was fittingly observed in Edmonton yesterday, when services were held in the Odd Fellows hall. The church was comfortably filled with members of the local lodge. Revs. G. A. Myers and Robert Pearson conducted the service, which opened with the hymn "Stand Up for Jesus," followed by a reading of the scripture. An address was delivered by Rev. Mr. Sayre.

SITE FOR A NEW SEPARATE SCHOOL

Five Acres Corner Twenty-first Street and Stoney Plain Trail.

A site for a new separate school has been purchased in the west end of the city. Five acres, at the corner of Twenty-first street and the Stoney Plain trail, have been taken over from the Bishop of St. Albert by the Roman Catholic Separate school district, and a price in the neighborhood of \$10,000.

## Grand Trunk Engineer Brings Train to a Halt in Time to Save Passenger's Lives

Many lives were doubtless saved Saturday night by the presence of mind displayed by Engineer Harlan, who was pulling a passenger train from Winnipeg, westbound, on the Grand Trunk Pacific, according to the passengers who arrived in Edmonton from the east today. The train was speeding along at the rate of thirty-five miles an hour when on reaching a point some distance this side of the Manitoba metropolis the engineer caught a glimpse of spreading rails almost directly in front of him. He reversed the lever and brought the train to a standstill but a few inches from where the rails started to spread. The train consisted of eleven coaches, in addition to the baggage and express cars, and carried a heavy burden of passengers. Nothing definite is known as to the cause of the rails spreading.

## SETTLERS COMING FROM MICHIGAN

The settlers' excursion which is to run to Alberta from the state of Michigan on May 10th will bring families of settlers to the province, according to word received by Chief Publicity Commissioner Thibault, from Commissioner Morin, in Michigan, this morning. Commissioner Morin has been busily engaged for some months in rounding up this large party of settlers, and he states that they are the cream of Michigan farmers.

300 French Coming.

Mr. Hotchkiss has information that 300 French settlers are coming west in May from the state of Michigan, and will settle along the Canadian Northern railway east of Edmonton. On May 30th, 14 families are leaving Montreal for the province, and on the 27th 10 families will leave.

## C.P.R. TO INAGURATE A SHORTER SERVICE

Thirty-Two Hours for Trip Between Edmonton and Winnipeg Over New Line via Wetaskiwin and Saskatoon

A thirty-two hour service between Edmonton and Winnipeg, over the new C. P. R. main line via Wetaskiwin and Saskatoon, will be inaugurated shortly, according to the announcement made by F. W. Peters, assistant to the president of the C. P. R., who is in the city this morning. Mr. Peters, together with Assistant Chief Engineer Sullivan, and Solicitor Bond, is a guest at the Alberta.

Trains will run into Strathcona, and eventually into Edmonton, over the new main line on a 24-hour schedule arriving at Strathcona at 6.30 in the morning, leaving Winnipeg at 10.30 at night.

The train will be a daily one, giving a daylight run through Saskatoon. The company have just completed terminals at Hardisty east of Westaskiwin. When the cut-off from Sedgewick to Strathcona is constructed, the 32-hour schedule will probably become a 30-hour schedule.

The new train service will give four daily trains over the C. P. R. into Strathcona.

To Start on Station Here

The new railway company are preparing plans for a very commodious station at Edmonton, which will be erected on the company's property at the corner of Jasper and Tenth. Work will probably start on this station this year, provided that difficulties in connection with the entrance of the railway across certain city streets, are satisfactorily settled shortly. Mr. Peters stated that there was no reason why the station should not be started this year.

"Conditions throughout the west were never better," said Mr. Peters. "The prospects for a big crop are splendid."

"I'll fine you \$500 and costs."

That was the sentence passed upon Moose Baxter, of Calgary, well known in Edmonton, on Saturday afternoon by Supt. Dean of the mounted police.

(Continue on Page Five.)

MEASLES WILL NOT INTERFERE WITH POLICE PLANS TO ATTEND CORONATION

The announcement in a Calgary paper that on account of an outbreak of measles in the R. N. W. M. P. barracks, the trip of a contingent of mounted policemen to the coronation will be abandoned, was discredited by Supt. Cuthbert, in conversation with the Capital this morning.

"No word has been received in relation to this matter," said Supt. Cuthbert, "but I regard it as extremely unlikely that the trip will be called off." The outbreak in Regina would not necessarily prevent the formation of a contingent."

# HOMESTEAD ENTRIES SURPRISINGLY LARGE

Report Local Land Office Shows Big Gains Over Last Year.

FIVE STENOGRAPHERS ARE KEPT VERY BUSY

Correspondence Requires Answering Multitude of Letters Each Day and Number Is Increasing All the Time—South African Scrip Now in Greater Demand Than Ever.

Five stenographers at the local land office are handling outgoing correspondence at the rate of over 270 letters per day, or an average of 50 letters per stenographer, a record which is created in few other business offices in the city.

It requires something like \$135 worth of stamps per month to stamp outgoing letters from the land office. According to the office, letters have been handed down for April, a total of 7785 letters were sent out during the month, less than 1,000 of which were pamphlets. Taking the balance of 6800 as actual typewritten letters this makes an average of over 270 per day for the 24 working days of the month.

The homestead entries made during the month totalled 866, as against 508 for April of last year. The pre-emptions were 7, the purchased homesteads 2, and the South African scrip 21, making a grand total of 899 homesteads, as against a total of 514 last year in April.

On June 30th, 14 families are leaving Montreal for the province, and on the 27th 10 families will leave.

S. A. Scrip Going East

The location of 21 South African scrip during this month is an indication that the scrip is being located at a rapid rate, and that there will be very little left. It is estimated that the number of scrips still outstanding at less than 1000.

MANY RESIDENCES TO BE ERECTED

Permits Issued Thirty Days Indicate Much Activity in Building Circles.

During the month of April permits for the erection of buildings valued at \$354,957 were issued at the office of the building inspector. Of the 283 permits which were taken out, the majority are for residences ranging in price from \$800 to \$10,000. Permits for only half a dozen large business structures were issued, which shows that the demand for residences has not in the least abated. Although there were no permits issued for three hundred houses under course of construction and of this number ninety-five per cent, were started before the month of April had been broken.

If the present rate holds up, all records for building in the city will be broken during the coming year, as at least four million dollars worth of new structures will be taken out. The number of permits taken out last month exceeds the figures of the corresponding month last year by 61. During last April permits for \$250,196 worth of buildings were taken out, which is over \$100,000 less than the figures for the month of April last year.

Prospects for May being a record breaker so far as the building department is concerned are also very bright, as there are a large number of buildings for which permits should have been taken out, but which, for one reason or another, will not be issued until some time this month.

at least that was required to insure against the transmission of infection, and the illness of a few men in Regina will not likely interfere with the formation of a contingent of the full force of eighty men.

No word as to the date at which the men from the "G" division will proceed to Regina has yet been received, but it is anticipated that they will leave for Regina in the near future, and that they will be in the city in the course of the week.

Word comes from Ottawa which confirms the appointment of Hon. Senator Roy, of Edmonton, to the position of Canadian Commissioner to Paris, France, with H. J. Hellenor, editor of the Le Soleil, of Quebec, as assistant commissioner. This announcement has been made several times, but it comes now as official from the Dominion capital.

Senator Roy, who was a resident of Edmonton for a good many years, has lately been residing in the city. He is managing director of Le Courrier de l'Ouest, Edmonton, and president of the Jasper Company, Ltd., of Edmonton. He has been prominent for a number of years in the city, and has been instrumental in bringing a large amount of French capital into the west.

Word comes from Winnipeg that the Edmonton entry for the Governor General's medal trophy may carry off the honors. Their production of "The Tyranny of Tears" is regarded as far surpassing any amateur production ever made in Canada.

# UNION MEN DECLARE AGAINST AN OPEN SHOP POLICY IN EDMONTON

# APRIL BREAKS RECORD FOR STREET RAILWAY

Upward Half Million Passengers Carried During the Month—Lack of Cars Congests Traffic on Strathcona Line

April proved to be a record breaking month for the street railway department. 457,959 passengers being carried during the thirty days as compared with 235,828 for the month of April one year ago. With a few more cars in operation it would have been possible to have transported over half a million passengers, but owing to the shortage of cars the number of fares were lost. Especially was this true on the Strathcona line where the addition of one or two more cars would not have given more than an adequate service.

Six of the new single end cars, ordered some time ago, are now en route to the city and immediately upon their arrival there will be pressed into service in order to meet the demands of the travelling public.

The passengers carried over the different routes during the month were as follows:—Route number one, Alberta avenue to McKenzie via Namsay, 14,919; route number 2, Edmonton and Strathcona, 156,717; route number 3, Alberta avenue to Twenty-fourth street via York street, 103,015; route number 4, Packing Plant line, 27,801; route number 5, First street and Vermilion avenue, 15,510.

Traffic has shown an increase of from ten to twenty per cent over the different lines during the past sixty days.

SENATOR ROY TO GO AS COMMISSIONER TO PARIS

FORMER EDMONTON MAN IS STILL MANAGING DIRECTOR OF LE COURIER D'EST OF THIS CITY.

A despatch comes from Ottawa which confirms the appointment of Hon. Senator Roy, of Edmonton, to the position of Canadian Commissioner to Paris, France, with H. J. Hellenor, editor of the Le Soleil, of Quebec, as assistant commissioner. This announcement has been made several times, but it comes now as official from the Dominion capital.

Senator Roy, who was a resident of Edmonton for a good many years, has lately been residing in the city. He is managing director of Le Courrier de l'Ouest, Edmonton, and president of the Jasper Company, Ltd., of Edmonton. He has been prominent for a number of years in the city, and has been instrumental in bringing a large amount of French capital into the west.

Word comes from Winnipeg that the Edmonton entry for the Governor General's medal trophy may carry off the honors. Their production of "The Tyranny of Tears" is regarded as far surpassing any amateur production ever made in Canada.

# TO NIGHT

Also on  
Tuesday and Wednesday Evenings

At 63 McDougall Avenue South, in the Seton-Smith Co.'s Office

There will be offered for sale 200 Lots

## Positively Without Reserve

In the Choice Subdivision of

# EASTMOUNT

# IN CAMROSE

### These Lots Are All High and Dry

and suitable for building purposes. The average price for this property should be about \$100 per lot according to prices on adjoining properties; however this bunch of lots will be sold regardless of price, to highest bidders, on terms as follows:

1-2 Cash at time of sale  
and balance payable in  
3, 6 and 9 months

**Without Interest**

### This Property is located only about

**Half Mile from the  
C. N. R. Station**

and freight yards, and is all first-class, good land, not low or broken up by ravines. The C.N.R. runs through the property and the town of Camrose own about 12 acres of the land which will probably be used for Park Purposes.

**Dont' Forget  
Be on Hand at  
8 p.m.**

This is certainly a great opportunity for a small investment. Camrose is bound to be a good town of at least four or five thousand people and when it is this property we are now offering will be worth at least \$200 per lot. This is not to be compared with buying in some new townsite, the future of Camrose like Edmonton is assured. These lots will no doubt go very fast and probably will go cheap.

**So be on hand at  
8 p.m.**

at the Offices of the  
**SETON-SMITH CO.**

## LOCAL CAPITALISTS FINANCE WESTERN GARMENT FACTORY

Best Evidence of Faith In Edmonton's Industrial Future Furnished By Enterprises Incorporated and Operated By Edmonton Men Without Assistance of Outside Capital

### PROGRESSIVE INSTITUTION IS WHOLLY EDMONTONIAN

In the construction of a great city there is one element that is essential to success—"faith."

While the faith of the capitalist from distant parts is flustering, the faith of the local capitalist is the faith that counts. It is the faith that guarantees to the outsider the belief of the man on the ground that the city has a real reason to become an industrial centre. When this local faith leads to the investment of local money in a local enterprise which depends for its success on the business conditions and the prosperity of the surrounding country, when the industry is operated under "fair" conditions, and when the product is of the highest class known to the trade, there is no room left to doubt that the claims that are made for the city as an industrial centre are absolutely believed in by the men who make the claims.

Edmonton has never had any large amount of outside capital invested in its industrial enterprises. Most of the manufacturing institutions in this city are local concerns which have grown up with the city and the country, expanding as the market expands and gathering prosperity from the general conditions of the country.

One such institution is the Edmonton Garment Factory. It was organized in 1908, and commenced business in March of this year. To date approximately \$45,000 worth of stock has been sold, a significant feature of which is that every dollar of this amount has been subscribed by local men, men who have been in the city for a number of years, have made money through the advance of the city, and are far-sighted enough to realize that the city is only just started in its course of development. Once the company was authorized to go ahead the men in charge took steps to secure a site and after negotiating with the city for some time leased property at the corner of Clark and Xmas, with an option of purchase, and erected a two-story structure, 100 feet by 34 feet, which when completed will be one of the most up-to-date factories in Western Canada.

At the present time the factory has twenty-two machines, all power operated, in addition to two button machines, a riveter and an electric cutting knife. All of the machines are in use and although in business only a little over a month the firm is now turning out over 300 garments per day. As rapidly as possible the firm expects to extend their plant, having an abundance of room on the second story of their building. On the ground floor the present time are located the manager's offices, all the machines in use and the cutting room. Up stairs within a few months will be installed some seventy-five more machines which will ensure an output of at least 1,500 garments per each working day of eight hours.

All of the machinery now in use, and that which will be installed, is the latest article on the market and every labor-saving device known to this particular trade has been installed. As has been said the machines are all operated by electricity and all the girls in charge of the machines have to do is to see that the goods are properly placed and sewed. Once the garments are completed they are turned over to the floor lady who inspects them and if she passes them the girl from whom machine they are produced is given a ticket showing that she has completed that much work. When the goods are packed they are again inspected by the

manager and if any piece is found to be defective the floor lady is held responsible.

By purchasing from a factory in the city, such as this, the retailer does not need to carry so large a stock. He can also secure few or many garments by simply using his telephone, and can have them delivered to his place of business instead of being compelled to wait for probably a month while he mails a letter to some eastern firm and then their delivery by slow freight. Should he desire a certain style of a certain quality of garment he can place a rush order and know that his goods will be delivered on time and much sooner if he had to wait the purchase of wholesalers located at a distance.

Well Lighted Building. The building, when completed, will be of a brick veneer character, is one hundred feet in length and thirty-four feet in width. Along each side are a number of windows thereby affording an abundance of light which is distinctly different from conditions in most factories. The machines are all located so that each one of the operators have their backs to the light, affording ample protection to their eyes. Every precaution to make the structure sanitary and fireproof in every particular and when completed the structure will be for the carrying on of the industry which it is to house.

First Class Goods. Every piece of cloth in the institution is absolutely first class and with the careful inspection which prevails all garments turned out are sure to be first class and satisfactory in every way. It is the intention of the management to develop a demand for their goods out of an article which will give satisfaction in every respect and will command larger orders once they have been placed in stock by the merchant.

Under Seal of Wages. The company now has in its employ thirty-three persons which includes the floor lady, the girls who operate the machines, and a cutter who was the best it was possible to procure. All employees are paid the union scale of wages, which, owing to the high cost of living, is considerably higher than prevails in the east. All work is done by the piece and as a consequence the persons who are industrious and careful with their work are afforded an opportunity of making excellent wages, one they have learned how to operate their machines in a proper manner. Each girl on a machine is given an opportunity to handle the different pieces which are used in the manufacture of the different garments turned out and in this way is learning a valuable trade.

Electric Cutting Machine. The electric cutting machine is an interesting piece of mechanism and is well worth making a trip to the company's offices to see. In the hands of an experienced cutter it cuts rapidly through seventy-two layers of cloth, cutting it perfectly and evenly and enabling an experienced man to turn out hundreds of unfinished garments per day.

Automatic Button Hole Maker. This automatic buttonhole machine is another novelty to the uninitiated. Pressing a lever starts the machine which runs until the buttonhole is cut and properly sewed. One touch of the foot starts the machine which continues until the work is completed when it automatically stops. All the other machinery is of a superior kind, manufactured especially for this class of business and are the latest types on the market to-day.

Sell Direct to Retailers. It is the intention of the management to sell direct to the retailer, thereby cutting out the jobbers profits and giving the merchant the benefit thereof in cheaper priced goods and materials of a better quality.

At the present time the factory is running at full speed and but little effort is being made to secure orders as the management first wishes to get a stock on hand in order to be able to deliver promptly when an order comes in. Within a very short time, however, they will be covering the entire province of Alberta and expect to enter the field in Vancouver this fall. When the plant is in full operation all of the towns between Prince Albert and the coast will be covered, as by that time the company will have a plant adequate to meet the demand which the factory is assured to have thrown upon it once the goods manufactured are placed on the open market.

Making Baseball Uniforms. This company this year received the order for the manufacture of the uniforms for the Edmonton baseball club. The uniforms are now being cut out and will be completed in time for the opening game on the home grounds. The goods used are of an excellent quality and when once completed, the boys will appear in the most attractive they have worn since the professional team was formed.

Officers of the Company. The officers of the company are A. E. Jackson, President; A. C. Rutherford, Vice-President; C. A. Graham, Secretary; and J. W. Lewis, Managing Director.

Directors of the Company. The directors of the company, all of whom are local men, as are the officers, are: A. E. Jackson, A. C. Rutherford, S. H. Smith, O. E. Lessard, J. W. Lewis.

A. E. JACKSON

President of the Western Garment Factory, an Edmonton Capitalist Who Demonstrates His Faith in Edmonton

J. W. LEWIS

manager and if any piece is found to be defective the floor lady is held responsible.

#### Retailers Will Benefit.

Retailers who deal in workmen's apparel will no doubt find that it will be to their advantage to purchase their goods in this city instead of from east of the prairie. The merchants are now preparing to start a "buy at home" campaign, believing that by dealing with local firms the consumer will benefit as well as the retailer or the home manufacturer of goods.

By purchasing from a factory in the city, such as this, the retailer does not need to carry so large a stock. He can also secure few or many garments by simply using his telephone, and can have them delivered to his place of business instead of being compelled to wait for probably a month while he mails a letter to some eastern firm and then their delivery by slow freight. Should he desire a certain style of a certain quality of garment he can place a rush order and know that his goods will be delivered on time and much sooner if he had to wait the purchase of wholesalers located at a distance.

### Strathcona News

Well paved streets as a municipal improvement of prime importance are apparently becoming appreciated to the fullest extent by Strathcona's council. Since the administrative board of three members was elected the year for bituminous streets has been continued until the present pavement is upwards of three quarters of a mile in length. That the council of 1911 are alive to the advantages of paved streets is established by their expressed determination to practically double this year the amount of bituminous now laid in the city. Some doubt has been expressed as to the advisability of placing pavement over new earth lots, which will be required on certain streets, but the bulk of the filling-in has already been accomplished this spring, so the intention remains to push the paving work on at least nine blocks.

Four blocks of the pavement put down this year will be on Whyte avenue, making this line thoroughfare well paved for nearly one mile west of Fifth street east. Of this amount three blocks will be added to the west end of the present pavement and another block will be attached to the eastern end. This will provide double car tracks for the street railway from Fifth street east, where the radial line now enters on Whyte to Fifth street west from whence the car line will run north to the sixth level bridge.

Another important extension of the system will be the two blocks to be laid in front of the new fire hall and connecting First north with Whyte on First street east. This will give the brigade a good stretch of pavement upon which to get away at an alarm.

The other project planned is for three blocks on Main street south from First avenue which will carry the pavement beyond the new C. N. R. depot which will probably be erected on Second avenue this summer. This Main street paving is considered highly important by some of the city officials by reason of its ultimate connection with the exhibition park grounds six blocks south, and also by its passing the new market square. Mayor Davies is among those of the opinion that the paving this year should be projected on Main to the exhibition park, and steps may be taken to have the necessary blocks added to the south extension.

Judging by the numerous building permits taken out within the past few days it appears that the home building season is shortly to open up in full swing in the city. In the following list will be noticed figures for several good buildings upon which construction is already begun or will be begun shortly and reports are already

coming in that many other property owners will start erecting soon, on first class dwellings, costing in some instances several thousand dollars. The list of permits secured from the engineer's office this morning shows the following figures:

J. T. Radford, dwelling, \$1,050; G. P. Downes, brick dwelling, \$5,000; J. M. Kinnear, frame dwelling, \$3,000; Edmonton City Dairy, brick addition to factory, \$1,500; D. Moreau, brick house, \$12,000; G. Brown, dwelling, \$200; H. Nelsch, cottage, \$200; H. Bain, house, \$200; F. Hanbee, dwelling, \$800; F. Schultz, house, \$250; F. Sunday, house, \$350; M. Simons, house, \$300; V. Onysch, house, \$300.

April proved to be a busy month at the board of trade office. Secretary Daines says that up to Saturday he had entertained 214 visitors at the office during the month and that letters and communications received totalled 105. Pamphlets mailed numbered 882. A direct result of Strathcona's exhibit at New Westminster last fall two men visited the office's Saturday morning and will buy land in the district.

What promises to be a long-winded debt case was in progress before the district court all day Thursday and a part of Wednesday and which is now adjourned until today's meeting in the city. The action is that brought by H. M. Whittington, architect, of Lethbridge, formerly of Strathcona, against the Methodist church for payment of fees alleged to be due him for work on construction of the new \$40,000 building some three or four years ago. H. D. Mills is conducting the defence and A. L. Markie is appearing for the plaintiff.

## Public Has a Right To Know Where The Money Comes From

The charges being made against Frank Oliver in the east will be followed with intense interest in Edmonton where the greatest claim which Oliver has had on his constituents is that he is an honest man.

While it is not compatible with a proper sense of justice that any man should be convicted without evidence or proof, there are some things that the public has a right to expect of a public man, and one of these is that he should not have money that he is not ready at any moment to account for to the fullest extent. If a public man suddenly comes into possession of wealth, he, having given his life to the public, should be ready to frankly tell the public the source of his wealth.

The public man who is not ready to make his life an open book has no right to be in public life. While it is only right that the privacy of a private citizen's financial affairs should remain as secret as he cares to make them, a public man, when he takes a public office, relinquishes the right to have financial secrets, or business secrets of any kind. This is the penalty which public men may for prominence and the public man who refuses to admit this right of the public is not imbued with the proper public sense which he should have before undertaking the responsibilities of public office.

In this day of complex civilization and involved interests there are many ways in which a minister of the crown holding an important portfolio might gain possession of immense wealth by the turn of a hand or the scratch of a pen.

A minister of the interior, for instance, having control of the natural resources of the whole Dominion, worth countless millions, by some such simple act as quashing the water suits against the Guggenheims in the Klondike or by transferring a land grant for MacKenzie & Mann from the rock ribbed region of the Lake of the Woods to the fertile plains of Saskatchewan, might render a service for which either corporation would be willing to pay handsomely if a minister could be found venal enough to accept money for such services.

Consequently, when it develops that Frank Oliver has been placing large sums of money to his credit in the bank it becomes a matter of immediate public interest and the public here in Edmonton, with the full knowledge that he is not making any such dividends from his government printing contracts, nor yet from his daily paper, have a legitimate right to ask what other lines of activity he is engaged in—at Ottawa or elsewhere. In other words, the public has a right to know where the money comes from.

## Street Railway Has No Chance To Make Money

The failure of the street railway to handle the traffic which presented itself when a crowd of not more than a thousand or so went out to the exhibition grounds on Saturday to see the aviator fly is sufficient evidence that if the street railway is losing money it is because it has no chance to make money under the management it is getting.

The citizens and the city council have been more than generous to the commissioners in the matter of financing the street railway. Everything that has been asked for has been granted, every bylaw passed, and every recommendation arising from the commissioners' office complied with.

If the street railway, after this generous treatment, cannot arise to the very slight emergency of handling a crowd no larger than would attend an ordinary baseball game, then the fault must be not with the street railway as a business proposition nor with the patronage, but with the management the street railway is getting from the city hall.

It is no excuse for the management to say that there are cars on order or cars delivered, but not yet ready for service, which would have averted the failure to handle the crowd. And it is also no excuse to say that the park line is not yet completed.

The citizens having voted the bylaws as fast as they were presented to them, the responsibility for the delay in the arrival of the cars this spring and for the delay in the arrival of the steel last summer rests entirely with the commissioners.

Commissioner Bouillon has had his own way in the handling of the street railway. He has his own men in the street railway department. He has been a year in office. If, under these circumstances, he has not been able to place the street railway in a position to handle a little Saturday afternoon crowd it only shows one thing—that Commissioner Bouillon has not the organizing ability that he should have to be worth the \$10,000 a year that the city pays him to handle the civic utilities.

### JUST PARAGRAPHS

The Bulletin claims that the story that Frank Oliver was becoming suddenly wealthy was made in Edmonton. Will the Bulletin assure the public that the same is true of the money?

The Conservative party at Ottawa has decided to fight reciprocity to the death, the demise mentioned no doubt being that of the party which is already so dead to the world as to imagine that protection is a popular issue in this age and generation.

The daring aviator, who rose on mechanical wings, circled the fair grounds three times, and came down in the same place, had good reasons to go up in the air again when he saw the meagre offering at the gate.

### C. P. R. TO BUILD TWO NEW FIFTEEN THOUSAND TON STEAMERS SOON

Montreal, May 1.—Sir Thomas Shaughnessy, who arrived from England yesterday, announced that contracts for two new fifteen thousand ton steamers for the Canadian Pacific Oriental route would be given out shortly. The ship will be larger than the Atlantic Expresses and are to be completed in eighteen months. Sir Thomas denied the rumor that the Atlantic Expresses would be transferred to the Pacific service and be replaced by the new vessels on their completion.

Sir Thomas also said that the C.P.R. would not extend its line through the Yellowhead Pass and denied the rumor that Mr. George Bury would be appointed second vice-president. He announced that the Dominion Atlantic line from Yarmouth to Halifax would shortly be taken over by the C.P.R.

A report criticizing the proposed agreement with the International Heating and Lighting Company will be submitted to the city council tomorrow evening. In view of this report and also to the fact that at least two other firms are anxious to submit propositions it is probable that the agreement will be laid on the table for another week.

## CITY OFFICIALS AT LOGGERHEADS

Question of Purchasing Machinery May Not Be Decided Tomorrow Night.

At the regular meeting of the council tomorrow evening the city commissioners will be expected to submit a report stating what type of machinery which they propose to purchase for the power house will be replaced by the new vessels on their completion.

Sir Thomas also said that the C.P.R. would not extend its line through the Yellowhead Pass and denied the rumor that Mr. George Bury would be appointed second vice-president. He announced that the Dominion Atlantic line from Yarmouth to Halifax would shortly be taken over by the C.P.R.

A report criticizing the proposed agreement with the International Heating and Lighting Company will be submitted to the city council tomorrow evening. In view of this report and also to the fact that at least two other firms are anxious to submit propositions it is probable that the agreement will be laid on the table for another week.

Exclusive Novelties in Neckwear at Kelly & Moore's

The midnight train between Edmonton and Calgary, which has hitherto been a tri-weekly one, becomes a daily to-day. The trains will leave Strathcona every midnight, pass Sundre, and from Calgary every night pass Sunday midnight. The traffic has been so heavy that it was found necessary to put the service on daily.

Howard Stubbins, for the past five years leader of Grace Methodist church, has resigned his position owing to pressure of business.

## SNAPS

## ROAD HOG MENACE TO AUTOMOBILES

Edmonton Auto Club Will Discuss the Matter at Meeting Tonight.

The elimination of the road hog will be one of the primary objects of the new Edmonton Automobile club, which will be formed it is anticipated, at a meeting to be held in the board of trade rooms this evening at 8:30. The meeting has been called at the instigation of a number of local motorists who have secured the use of the board of trade rooms for the evening, and over one hundred and twenty invitations have been issued by Secretary Fisher of the board.

Automobile clubs have multiplied throughout Western Canada during the past few years, and as the city possesses probably a greater number of automobiles than any other city in the prairie provinces west of Winnipeg, it is felt that the time has come for Edmonton to get into line, by the formation of a association which while protecting the rights and interests of motorists and fighting against unfair persecution, should such action at any time become necessary, will be at the same time exert a vast influence upon the automobile-using community for the prevention of reckless driving and the driving of automobiles by inefficient. Scorching is to be discouraged, and it is believed that the club can perform a most useful function in removing any stigma which may attach the motorists in general through the conduct of the irresponsible few. It is felt that the automobilists are accustomed to the use of the law for the satisfactory regulation of motor traffic, than could be accomplished by the interference of police bodies after infractions of the law have occurred.

Although only one hundred and twenty invitations have been issued, a number falling far short of the actual motorists in Edmonton, every owner of a car in the city is invited to attend the meeting this evening, and take part in the proceedings looking to the formation of an automobile club.

### Doctor Told Her She Did Not Have Pin Of Good Blood in Her Body

Mrs. Dorothy F. Cormier, Middle Saskatchewan, N.B., says: "In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different other kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my ailment and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am positive that my being alive today is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well and had a lot of work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer. I never felt better in my life. In the winter of 1905 I had Pneumonia, and it left me with a lame back, and the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received much benefit from Burdock Blood Bitters that you may publish this as it will help others as it has me." Manufactured only by The T. M. M. Co., Limited, Toronto, Ont.

Charles McKerral of Strathcona, father of the four year old boy who was killed by a street car on Whyte Ave., Strathcona on July 23 of last year, has entered suit for damages from the city to the extent of \$5,000, in the supreme court of Alberta. The plaintiff claims that the fender on the car was too high to be effective, and that as the airbrake on the car was not automatic, the motorman was unable to draw up in time to prevent the occurrence of the accident.

The Trades and Labor council will hold a meeting Tuesday evening, in the exhibition hall second street, next the Thistle rink.

## BRUTINEL TRYING FOR NEW CHARTER

Is Negotiating for Franchise From Prince Rupert Council.

Raymond Brutinel, who holds a radical railway charter in the Edmonton district and who once had an agreement to supply light and power to the town of St. Albert, but which was quashed by the legislature on ground of high rates, is now negotiating with council of the city of Prince Rupert, the O. T. P. Pacific terminal, to install power, gas, and a street railway in that place.

Mr. Brutinel has placed tentative agreements before the Prince Rupert council, and although they have been meeting with criticism, it is probable that the difficulties will be overcome. Mr. Brutinel has already a charter from the B. C. legislature to operate in Prince Rupert, and if he fails of agree-

ment with the council there, he may fall back on the rights of the charter. Mr. Brutinel is asking for a forty year franchise for his gas proposition, and proposes to charge \$1.50 for cooking and heating, and \$1.75 for lighting, with a charge of \$1.25 where the gas was put in to supplement electric light. He proposes to install his gas plant first, then his power plant, and after a few years his street railway.

F. W. Harris, a prominent manufacturer of Owen Sound, Ont., together with his son, and another eastern gentleman, are in Edmonton today, having come west for the purpose of looking for land upon which Mr. Harris' son will locate. Mr. Harris is a guest at the King Edward. It is probable that he will invest here before returning east. It is the intention of his son to remain here.

F. W. Peters, assistant to the second vice-president of the C. P. R., and Engineer Sullivan are in the city today conferring with the city officials with respect to the entrance of the company's line from the high level bridge to a point north of Jasper avenue.

## PETERS CONFERS WITH ARMSTRONG

Talk About Entrance of C. P. R. Line From High Level Bridge.

F. W. Peters, assistant to the vice-president of the C. P. R., and J. G. Sullivan, chief of the company's engineering staff, are in the city today conferring with Mayor Armstrong and the commissioners with respect to the entrance of the company's line from the high level bridge to a point north of Jasper avenue.

Plans were submitted by the representative of the company this morning which provide for a subway on Jasper and overhead bridges on McKay and Victoria avenue but no agreement has been reached as yet. This afternoon the mayor, commissioners and representatives of the company will visit the high level bridge and inspect route by which the company expects to bring their line into the city. Commissioner Bouillon some time ago pointed out that it would be impossible to construct a subway on Jasper according to the entrance plans submitted by the C. P. R. After the deliberation and considerable study of the question he decided that an overhead bridge for traffic and pedestrian purposes would prove more satisfactory to the city and the company. With this in view negotiations were re-opened which has resulted in Mr. Peters and Engineer Sullivan visiting the city today. It is probable that after the inspection this afternoon the commissioners and representatives of the company will reach an agreement the details of which will be submitted to the council at the regular meeting tomorrow evening.

Max Dill's Finish. The Max Dill company, which has been giving the Edmonton patrons of the theatres a week of laughter, closed today. The trains will leave Strathford night with the presentation of a series of jokes set to music under the title of "Easy Money."

While the audience might be "up against it" to discover a plot, the music is good enough that the production does not require a plot; in fact, a plot in a week-end laugh like "Easy Money" would be superfluous and a bore. The piece was made as a laugh-producer, and it has about four dollars worth, wholesale, in every act.

One of the performers, the sporting editor, who took in the show for the Cavalier, says that Fred W. Snook, as Kill Welch, the bookmaker, was absolutely true to life, while Jack Pollard as Bud Jockey was good and Laura Oakley as Vera Montford has what he describes as the classical value in the

## WAS TERRIBLY AFFLICTED WITH LAME BACK.

COULD NOT SWEEP FLOOR.

Three Boxes of Doan's Kidney Pills Cured Her.

It is hard to do housework with a weak and aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered they get out of order.

Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble. Mrs. N. Larmour, Smith's Falls, Ont., writes:—"I take pleasure in writing you, stating the benefit I have received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back and was so bad I could not even sweep my own floor. I was advised to try Doan's Kidney Pills, which I did, and with the greatest benefit. I only used three boxes and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

Price 50 cents per box, or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's." country—meaning, no doubt, that she has a good voice. Max Dill and Roger Gray as Pickus and Pluckus produced pleasanties that were up to concert pitch and had never gotten into the hands of the cold storage trust, and the choruses were jingly enough to set the crowd whistling as they went out—which every light opera manager counts as the most flattering testimonial.

The Max Dill company will spend this week in Calgary.

Twenty thousand dollars is the amount paid by Miss Vestia Victoria, who will appear at the Empire tonight, for the rental of the specially constructed steel Pullman car innovation which has been lately turned out of that company's factory. The car was originally intended for the use of Miss Mary Garden, but was abandoned by her when Miss Victoria offered nearly twice the amount of money for the use of it. The car contains a specially built compartment, thirty feet in length, in which there is a grand piano, and a lately patented mechanical appliance for securing perfect acoustics. A novel device of felt and other noise-deadening materials insures almost complete silence in the car, even when it is rattling along at high speed.

## Why Hesitate?

An Offer That Involves No Risk For Those Who Accept It.

We are so positive our remedy will completely relieve constipation, no matter how chronic it may be, that we offer to furnish it free of cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or fluids. They do not purge or cause any inconvenience whatever. They will positively overcome chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c. and 25c. Sold only at our store—The Rexall Store, A. Archibald.

The fire department was called out yesterday afternoon to extinguish a brush fire in the western part of the city.

The new copper wire now being strung between Edmonton and Lethbridge for through long distance service is one of the longest wires for telephone work in America. It will be in operation between Edmonton and Calgary in a month.

MOOSE BAXTER FINED HEAVILY (Continued from Page One.)

on a charge of selling liquor without a license.

Moose was first baseman for the Eskimos last year. At the end of the season he moved to Calgary, where he opened a bath house. Smiler rumors as to the class of place Moose was really conducting began to get around, and the provincial police made a raid. The above fine, the heaviest in a long time, was the result of the raid.

Moose used to get soaked; some pretty hard times by umpires in the old days, but never so stiff as that which the mounted police inspector handed him on Saturday afternoon. Moose paid the fine.

MARKED INCREASE POSTAL RECEIPT (Continued from Page One.)

The business month which closed on Saturday evening, was in round figures

\$109,360, as compared with \$82,800 in April, 1910.

In the post office department, as in the customs, there is a falling off in April as compared with March. This is the normal course in every year, as the spring shipments of various kinds are invariably higher in March than in April, but the falling off is slight. Money orders sold in the month just closed were of a total value of \$39,365.61; as compared with \$46,753.14 in March and \$26,081.37 in April, 1910; money orders paid totalled \$31,925.72 in April, 1911, \$53,872.80 in March and \$42,051.51 in April, 1910.

Stamp sales made last month to the value of \$7,988, in March to the value of \$8,501, and in April, 1910, \$6,712.30. Other receipts were as follows:

Postal notes paid, April, 1911, \$5,375.29; March, 1911, \$5,701.51; April, 1910, \$3,325.25. Postal notes sold, April, 1911, \$1,562.80; March, 1911, \$1,562.80; April, 1910, \$1,562.80. Registered matter mailed, April, 1911, 6,868 packages; March, 1911, 7,410; April, 1910, 5,729. Registered matter passing through, April, 1911, 3,131 packages; March, 1911, 3,080; April, 1910, 6,000. Registered mail delivered, 1,582 packages; March, 7,800; April, 1910, 2,010.

## NEWS OF THE CITY

J. E. Nix delivered an address on Temperance in the Orpheum theatre yesterday afternoon. The address was illustrated by special lantern slides.

Rev. O. D. Crockett leaves on Thursday for Lethbridge. During the next three months he will work among the Indians on the reserve in the vicinity of that city.

The fire department responded to a call on Fifteenth street on Saturday morning. The blaze was extinguished with the chemical and no damage was done.

Rev. John A. Nichols, M.A., Ph.D., of Queens College, Kingston, has been selected by the board of management of First Presbyterian church as assistant to Rev. Dr. McQueen.

Mischia Elman, the world famous violinist is giving a concert in McQueen hall, this evening. The auditorium will open at eight o'clock. Plans of seats may be seen at Harmony Hall, Rice street.

No. 2 fire station had a call to a fire in a rubbish heap on Fifteenth street Saturday night at ten o'clock. On Sunday morning at 11 No. 3 station was called to a prairie fire at Churchill and Eleventh.

W. R. Patterson, of Irma, was injured severely in the eye while hunting last week, and is now in the city having the wound attended to.

The Strathcona board of trade is on the trail of the C. P. R. for late mail deliveries. Citizens are complaining that they get their eastern mail over the C. P. R. a day later than Edmonton citizens.

A meeting of the Edmonton Poetry association will be held in McQueen's Hall this evening at 8 o'clock. The subject to be discussed is "The Brooding and Fearing of Young Chicks."

Inspector Bates, of the H. N. W. M. P., Calgary, has been selected to fill the post in the north left vacant by the untimely death of Inspector Fitzgerald. Inspector Bates has been chosen on account of his long service. He has spent over seven years in the north country.

A sacred concert was given by the Salvation Army band in the Bijou theatre yesterday afternoon and was largely attended. At seven o'clock a meeting was held. The object of this meeting was to further the campaign now being carried on to raise \$2,000 for the band and different religious movements.

Lovers of good music are prepared for a treat at the Auditorium tonight when Mischia-Elman will give one of his marvellous performances on the violin. The concert begins at 8:30 o'clock. Advice just received from Vancouver state that all the great artists who have appeared there praise Mischia-Elman as undoubtedly the popular public ideal. He was recalled time after time. Critics express inability to describe his wonderful performance which they characterize as a bouquet of sounds and silences and whispers. The vast audience was reluctant to leave the theatre at the close.

Home rule for Ireland will be a reality very shortly, according to A. A. Surtees, a solicitor from London, Eng., who is paying a visit to Edmonton this week. Mr. Surtees is travelling through Canada for the first time to get impressions of the country, and its growth commercially. He is a guest at the King Edward.

Speaking of old country politics, he said that Ireland would obtain home rule in a solid form very soon. The Liberal government would be compelled to give some form of home government to Ireland. Mr. Surtees said that generally speaking, old country politicians were opposed to reciprocity between Canada and the United States.

CHIEF ENSOR STILL ABSENT FROM DUTIES AT CITY HALL

The mystery of Chief Ensor's unauthorized departure from the city remains unexplained. Leaving early on Saturday morning for, as he described it, "a business trip to Stettin," he left word in an unofficial manner that he would be back in Edmonton this morning, but when a Capital reporter inquired of the chief's sanctum this morning, it was found that the chief of the police force still an absentee. Deputy Chief Tibbitts, upon whose shoulders responsibility for the department rests during the chief's absence, knew nothing of Chief Ensor's departure. He had not been informed that the chief was going away, did not know where he was, nor when he would be back. The city commissioners are still in a blissful state of ignorance as to the whereabouts of the chief, and the curious thing is that no one seems at all anxious to solve the mystery, or concerned

about it.

Next morning Mr. Dowsett found the tracks of the man who had jumped from the veranda in the house in front of the house, and evidences of the other man in other places on the lawn. He notified the police and asked them to investigate.

That was on Friday. Since then he has heard nothing from the police department. No officer has ever visited his house or made any call on him for further information, and as far as he knows no effort has been made to investigate the circumstances.

LICENSE BOARD IS IN SESSION

Protest against the renewal of a license to Thos. Lavell for the Half Way house on the Fort Saskatchewan trail, was made before the license commissioners at their annual meeting in the city hall this morning. The protest was made on the ground that a license is not required for public convenience, and that there is not a sufficient number of signatures of bona fide residents to the license petition. The commissioners reserved their decision until this afternoon when it will be continued at 3. Twenty-four applications for renewals and one for transfer of license, will be considered by the commissioners at the present sessions. The great majority of the applications are in respect to hotels in Edmonton city.

The hearing was opened before adjournment this morning of the protest of Samuel Hothwell and others against a renewal of the license of the St. Elmo hotel, on the ground that he is

not a fit and proper person to hold a license. The protest is based upon an occurrence alleged to have taken place at the hotel on March 18. Jas. McGaffery is appearing for Hothwell and H. H. Parke against Thos. Lavell, the licensee, the case will be continued this afternoon.

Protest will be entered this afternoon against the renewal of the license of the Shamrock hotel, Riviere qui Parle. It will be contended that the present licensee, John McNamara, has been guilty of infractions of the law. Proprietor and less are at loggerheads in respect to the Victoria hotel, Morinville. Here, the licensee and licensee is applying for a renewal of his license, while Vanderhout, the owner of the property, will ask that a transfer be made to him. Jas. McGaffery will appear for Hergott and H. H. Robertson for Vanderhout.

W. G. Girvin will apply to the commissioners for a transfer to him of the license granted to Leonard A. Gooder in respect to the Jasper house, Dr. O. M. Strong of Edmonton, and Thos. McGaffery of Olds and C. G. Bayne of Banff are the commissioners hearing the applications.

## POLICE TOO BUSY TO HUNT BURGLARS

Trifle Like Attempted House-breaking Receives No Attention From Department.

A remarkable commentary on the police methods under Chief Ensor's administration of that department is contained in a story given the Capital this morning by J. C. Dowsett.

Mr. Dowsett, who is manager of Ross Brothers wholesale branch, lives in the west end, at 625 Seventh. Late on Thursday night, after the family had retired, the servant raised an alarm that there were men trying to get into the house and Mr. Dowsett got up in time to see a man, who had jumped from the veranda when he saw the alarm, in the house in front of the house, and evidences of the other man in other places on the lawn. He notified the police and asked them to investigate.

That was on Friday. Since then he has heard nothing from the police department. No officer has ever visited his house or made any call on him for further information, and as far as he knows no effort has been made to investigate the circumstances.

## AVIATORS FAIL TO GIVE EXHIBITION

Thousands Correspondingly Disappointed—Not the Fault of Birdmen.

Several thousand citizens in Edmonton and Strathcona, in hopes of a great disappointment, were doomed to cruel disappointment yesterday, when they spent Sabbath afternoon in a vain attempt to locate the aviators who were supposed to have made the flight from Edmonton exhibition grounds to Grand View Heights on the south side of the river.

While several thousand citizens held their gaze painfully skywards for most of the hot afternoon, as special street cars banged to and fro between the sister cities, packed to suffocation, carrying eager crowds to the Heights, the two aviators who were to have been the centre of all this public attention, were comfortably seated in a Pullman car speeding southward.

It was not the fault of the aviators, it was not the fault of the disappointed public that the flight did not come off. The aviators had to catch the train south to make connections for an exhibition flight in the eastern States. Furthermore, they discovered on Sunday morning that their flight might be a breach of the Lord's Day act, and, to avoid this, they packed their aeroplanes away in the express cars, and betook themselves to the Pullman of the south-bound train.

Hugh Robinson made three successful flights on Saturday afternoon, staying in the air for fifteen minutes, and demonstrating the ease with which the machine can be handled. A big crowd watched his maneuvers on Saturday at the exhibition grounds.

GERMANS TO SETTLE IN PIGEON LAKE DISTRICT

Pigeon Lake district is to become the home of a colony of German settlers. This is the information which the Public Information Headquarters, of the provincial government, has received. The colony are expected to come west this summer and have announced their intention of taking up land in the Pigeon Lake region. This district is west of Wetaskiwin and includes some of the finest land in the province. It is traversed by a new line projected by the Canadian Northern out of Strathcona.

## House and 10 Lots

For Immediate Sale

In Reside, Strathcona, 1 room on ten lots; chicken house \$1800; 7 rooms, large kitchen, good barn for 4 head, chicken house with capacity for 100 fowls, buggy shed, well equipped garage, well cultivated garden covering area of about an acre.

## Price \$3500

\$1000 cash, balance arranged, or

## \$3000 Spot Cash

All this is within 20 minutes' walk of the car line and about a mile from the heart of Strathcona.

This is the most picturesque spot in the country. There is a telephone already in the house. An ideal home for the city man to come to, where there is all the conveniences of a city house, combined with the charm of a country residence, or admirably suited for the country man to use as a market garden. This is a rare opportunity and will bear very close investigation. If you are interested, we can take you out at a moment's notice.

Motor Vehicle  
Act  
Regulations  
Governing Permits,  
Rentals and Transfers

Pursuant to Section 2 of the Motor Vehicle Act, the following regulations have been adopted by the Lieutenant Governor in Council governing the issuance of permits for the use of motor vehicles on public roads and highways and transfers thereof.

1. The following fees shall be paid to the Department of the Provincial Secretary for Motor Vehicle permits, renewals and transfers:

For permit on first application ..... \$3.00  
For annual renewal of permit on first application ..... 2.00  
For transfer of permit ..... 1.00  
If a permit shall remain in force during the calendar year in which it is issued the annual renewal shall be paid on the thirty-first day of December in each year.

2. On a change of ownership of a registered Motor Vehicle the permit shall be transferred to the new owner, and the owner of the vehicle shall apply to the Provincial Secretary for a new permit. The permit shall be issued to the new owner on the day of the transfer of the vehicle.

3. A number corresponding to that of the permit shall be exposed upon the Motor Vehicle in a conspicuous place, and the permit shall be carried in the vehicle.

4. A permit may be issued to a manufacturer or dealer in Motor Vehicles upon payment of the fee hereinafter provided, which said permit shall apply to any Motor Vehicle which said manufacturer or dealer may from time to time, during the term of the said permit hold for sale and for private use or hire.

5. Such permit may be renewed from year to year upon the terms set out in section thereof.

6. If for any reason any permit issued as aforesaid shall lapse or not be required, the Provincial Secretary may, at any time, cancel any permit issued as aforesaid.

7. Any person violating any of the provisions of the Act shall upon summary conviction be liable to a fine not exceeding fifty dollars, and in default of payment, one month's imprisonment.

E. THORNBOROUGH  
Deputy Provincial Secretary.

## G. T. P. Addition

In looking over our city for a safe investment, don't forget that G. T. P. Addition has been turning over at a rapid rate and many profits have been reported from people who were lucky enough to own property in this popular addition.

We have a few lots left which we are selling from \$50 to \$150 each, on terms of \$10 cash; balance \$5 per month. Can you do better?

Don't let them all go before you get in on this, or you are going to have something to regret.

We have money to loan.

We have S. A. Scrip for sale.

We have a fine list of farms for sale and rent.

Canadian Investment Co., Ltd.

30 Jasper Ave. West. EDMONTON, ALBERTA.
